INSTRUCTIONS FOR ASSEMBLY, MAINTENANCE AND USE OF *tp* TOYS

**Please read carefully and keep all enclosed information
or future reference.**

1. ASSEMBLY AND SAFETY INFORMATION

tp toys must be assembled by an adult. They must be erected exactly in accordance with the assembly instructions. Enlisting the aid of a helper will make assembly easier. In order to ensure the correct tensions and to ease assembly, it is important to assemble the product hand tight to begin with. Only when complete, should the fastenings be fully tightened and checked. This pack may contain small parts and is not suitable for children under 36 months until fully assembled. We recommend that you place small parts on a tray, or something similar, to prevent the frustration and disappointment of mislaying them. Please take care during assembly as the manufacturing process can sometimes result in the occasional sharp edge and small pieces of waste metalwork. Should there be any missing parts, the toy must not be used until replacement parts have been fitted - the *tp* Customer Services line is +44 (0)1299 872804 (English Speaking).

2. SITING

Under no circumstances should any of our toys be positioned on hard surface such as concrete or asphalt, unless the ground under the toy plus the recommended freespace area is covered with a safety surface. Examples of suitable surfaces are grass, sand or a play surface intended for this use. *tp* toys should be sited on level ground.

3. USAGE

tp toys are designed and made for family domestic use only by children aged between 3 and 12 years, unless otherwise stated, and must not be used by anybody else. Misuse can result in injury.

4. SUPERVISION

Children should always be supervised while they are playing on *tp* toys and should be instructed not to use the toy in an inappropriate or hazardous manner. We recommend that they do not wear loose-fitting clothing or jewellery than may catch or snag during play. Children should not wear cycle helmets while playing on *tp* toys.

5. WEATHER CONDITIONS

Special care should be taken as weather conditions change. In particular, outdoor toys can become slippery in wet weather and tongues and lips can stick to metalwork at subzero temperatures. In warmer and sunnier weather, parts can become hot, and the temperature should be regularly checked during play, especially metal parts and slides. If there is any doubt over safety then the toys should not be used. If high wind is expected or forecasted, please ensure that the outdoor toys are either moved to a sheltered position or well secured to the ground or other immovable object.

6. WATER PLAY

Many surfaces can become slippery during water play. Extra caution and supervision is required when combining water (e.g. paddling pools, aqua slides etc.) with other forms of outdoor play.

7. MAINTENANCE.

With all toys it is vital that the equipment is checked regularly and often by an adult. The complete toy should be checked at least once a month, and particular attention should be paid to connections and fastenings. If any part exhibits signs of excessive wear, then it should be replaced. In the event that a component becomes bent or damaged, it should be replaced. This is particularly important for moving and swinging toys. Failure to do this may result in the product malfunctioning and causing injury. Children must not be allowed to use the toy until properly installed and checked. Galvanised tubular products may require occasional maintenance. If surface rust appears it should be removed with either a wire brush or coarse sandpaper, and the area treated with a non-toxic paint.

8. SWING FRAMES

These must always be used with the stakes provided. If the stakes do not give enough hold, we recommend that you concrete them in place. Never set the legs of a swing frame in concrete.

9. SWINGING TOYS

When fitting swinging toys it is vital that moving parts have no metal to metal contact. Children should be instructed not to pass in front of or behind moving items, not to twist or swing an empty swing seat, and not to get off a swinging toy when it is in motion.

10. ROPES

These ropes will degrade over time. When signs of degradation appear, the toy should be replaced.

11. FIRE RISKS AND DISPOSAL

Never allow *tp* toys to be placed or used near a fire. When it becomes necessary to dispose of your equipment, remove all bolts and disassemble. Store out of the reach of children until it can be properly disposed of.

These instructions are issued in the interest of child safety, and we do ask you to follow our advice.

The Basketball Ring is not designed to support the weight of a child. Hanging from the ring may damage the equipment and could cause injury.

L'anneau de basket n'est pas conçu pour résister au poids d'un enfant. Si vous vous suspendez à l'anneau, vous risquer d'abîmer le matériel et de vous blesser.

L'anello del cesto da basket non è progettato per supportare il peso dei bambini. Appendendosi all'anello si può danneggiare e si potrebbero provocare anche lesioni personali.

El aro de baloncesto no está diseñado para soportar el peso de un niño. Si se cuelga del aro, el equipo puede ser dañado y podrían provocarse heridas.

Der Basketballring kann das Gewicht eines Kindes nicht tragen. Hängen am Ring kann zur Beschädigung der Ausrüstung und zu Verletzungen führen.

CHECK ALL BOLTS ARE FULLY TIGHTENED

Assurez-vous que les écrous et les boulons sont serrés au maximum.

Controllare che tutti i dadi e i bulloni siano ben serrati.

Compruebe que todas las tuercas y tornillos estén ajustados completamente.

Prüfen Sie, dass alle Muttern und Bolzen fest angezogen sind.

Decide on your location carefully, remembering that the ground socket is permanent when installed.

Décidez d'un emplacement avec soin, en vous souvenant que la mortaise au sol est permanente une fois mise en place.

Decidere il posto con attenzione, non dimenticando che una volta installata la presa a terra è permanente.

Decida el lugar donde lo va a colocar con cuidado, recordando que el encaje en tierra es permanente una vez que ha sido instalado.

Wählen Sie Ihren Standplatz sorgfältig aus und vergessen Sie nicht, dass der Rohrstutzen im Grund dann dauerhaft installiert ist.

The assembly is now complete. Please ensure that maintenance and use instructions are followed and keep this booklet for future reference.

Vous avez à présent terminé le montage. Veuillez vous assurer que les instructions de maintenance et d'utilisation sont observées et conservez ce livret à titre de référence.

L'assemblaggio è ora completo. Assicursi di seguire le istruzioni di manutenzione ed utilizzo e conservare questo libretto per futuro riferimento.

El armado ya está terminado; por favor compruebe que se sigan las instrucciones de uso y mantenimiento y conserve este folleto para poder volver a consultarlo.

Die Montage ist jetzt fertig. Bitte stellen Sie sicher, dass die Wartungs- und Gebrauchsanweisungen befolgt werden. Bewahren Sie dieses Heft für künftigen Bezug auf.

Lifetime Guarantee

Thank you for purchasing one of our quality toys. This product carries a **Lifetime Guarantee** against rust causing failure on all galvanised steel parts.

tp Activity Toys guarantees to you the original retail purchaser that for your child's lifetime of outdoor play, rust will not cause the product to fail structurally. (Failure is defined as rusting from the inside through to the outside i.e. perforation).

In the unlikely event of such rusting occurring **tp** will either supply replacement parts of the affected area, or replace the toy if the parts are no longer available.

Galvanised products are very tough but they may require maintenance from time to time (as detailed in the Maintenance Notes at the front of this handbook). Regular inspections are important. Any surface rust, staining etc. should be treated in accordance with these instructions and are not covered by the **Lifetime Guarantee**.

This Guarantee does not apply to any part if damage has been caused by abuse, vandalism, misuse, accident or non-maintenance or if the original purchaser resides outside the British Isles or Ireland. All other "non-galvanised steel" parts are guaranteed for at least twelve months.

To be covered by the **Lifetime Guarantee** it is essential that you complete and return one **Guarantee Registration**, listing all products purchased. As an additional bonus you will then automatically be entered into the **Quarterly Prize Draw**.

This helps us to monitor and maintain our performance as market leaders in the design and manufacture of outdoor play and associated products. It also helps us to communicate quickly with you should the need arise and to keep you up to date with the developments in our range.

"This guarantee does not affect your legal rights."

Claim Procedure

Should a claim be necessary please write to our Customer Services Department, **tp** Activity Toys Ltd., Stourport-on-Severn, Worcestershire, DY13 9EX, England.

We would require the following information and we recommend that you complete some of these details now:

Your name, address and daytime/evening telephone number.

Product Name.

Guarantee Number.

Date of Purchase.

Where Purchased.

Original Till Receipt.

Identification of the Affected Part(s) - Photographs preferable.

Please do not send products or parts at this stage as this may not be necessary.

This product's Guarantee Number is:
